PUBLIC MEETING
Education and Public Outreach Committee for the NASA Advisory Council
November 27, 2012
NASA Marshall Space Flight Center (MSFC), Bldg 4200 – Room 504
Huntsville, AL 35812

Agenda (FINAL)

Instructions for Wireless Connection at the Meeting

The **MSFC** and MAF **wireless** guest networks provides unsecure access to the Public Internet and is available at most all buildings at **MSFC** and MAF. You can access the **wireless** guest network as long as your device is equipped with a Wi-Fi card. **MSFC** and MAF Guest Network access adheres to NASA-STD-2850.2.

Connecting to the nasaguest **wireless** network

1. Open your **wireless** network client and look for nasaguest in your list of available networks.
Note: There is no encryption (e.g. WEP, WPA, etc.) on the **nasaguest** network. Visitors are encouraged to use VPN or SSL protected (e.g. <https://>) sites when working with sensitive data.
2. Launch your web browser. You should be redirected to the **wireless login** page.
3. Login with a valid E-mail address.
4. Read the terms of service.
5. Click the **I Agree** button.
6. You should now be able to access the Public Internet.
7. You do not need to keep your browser open to remain logged in. Once you are out of the **wireless** network's range, you will automatically log out.

When you open the browser (e.g., Internet Explorer, Mozilla Firefox, or Safari) on your laptop, a self-registration screen will appear. You will be required to read and accept The Acceptable Use Policy before connecting to the Guest Network. Guests can only access the public internet.
